It is said that in the south part of the state, fields, bare of any vegetation, are blowing badly with fences already drifted under at many points.

Over The Hills

Quote: "When someone is mean, don't listen. When someone is rude, walk away. When someone tries to put you down, stay firm. Don't let someone else's bad behavior destroy your inner peace."

Let every day be "a chance." A chance to be a better person. A chance to enjoy life to its fullest. A chance to correct mistakes. A chance to forgive and to ask for forgiveness. A chance to love and be loved. Don't miss the "chance" that God has given you when you start each new day. Faith does not mean trusting God to stop the storm, but trusting God to strengthen us as He walks through the storm with us.

Don't complain about your circumstances. Ask God to forgive your bad attitude when things don't go your way. Know that He has a great plan for your life and that He has already showered you with more blessings than you can count and many that you do not deserve. Remember the rule of "one"! One smile can start a friendship. One word can end a fight. One look can save a relationship. One person can change your life. Be aware of the power of ONE and remember the strength of the Three in ONE!

IF?

If I could go back
And be twenty once more
With the knowledge I have gained,
Would I make the same mistakes galore?

Would I take time and consider
Before I forged on ahead?
Would I factor my choices
And make others instead?

Maybe it's good
That we can't go back
Because we would probably follow
The same old track.

We are creatures of habit
So much is ingrained
That even with knowledge
Was there wisdom gained?

We might do things different
With similar results.
For God's in control
With free will up to us.

So, lean on the Lord
And don't wish to redo.
Let Him do the changing
To make a better you.
