

New camera onboard

MARCIA HORA - THE STAPLETON ENTERPRISE

A look inside the Logan County Sheriff's patrol pickup shows the new in-car camera that interacts with a body cam. Two new in-car cameras have been purchased using grant funds.

A new in-car camera is now on board in the Logan County Sheriff's patrol pickup, thanks in part to a grant. Sheriff Sean Carson said his office received \$3,500 in grant funding to purchase new in-car cameras. One has been installed in the 2018 Dodge pickup, and the other camera will be placed in the 2019 Dodge pickup when it arrives. The new cameras replace ones that had been in use for approximately 10

years. "The body cam and in-car camera interact with one another, and is an improvement over the old system," Sheriff Carson said. The bid for a new Dodge pickup was accepted from Sandhills Motors in Arnold, and the vehicle should be arriving in November. The Logan County Road Department will be using the Dodge pickup currently in use by deputy Dalen Wood.
